Meet BIORING at IFIB conference in Rome!

Dear BIORING project readers,

We are thrilled to invite you to join us at the **IFIB – International Forum on Industrial Biotechnology and Bioeconomy 2026**, taking place in **Rome, 1-2 October**.

The BIORING – High performance bio-coatings project is proud to support the event and will be there with a range of engaging activities, including:

- Booth showcasing project's demonstrators and solutions
- Speech from our coordinator
- Matchmaking session with our partners
- Poster dedicated to our bio-based coating platform

IFIB is an annual international forum focused on industrial biotechnology and bioeconomy, bringing together key global stakeholders to discuss and showcase the latest developments in the emerging economy based on renewable biological resources.

Register to the conference!

Interested in BIORING solutions? Cooperate with our partners!

The BIORING chemical platform and prototypes are now available at lab level and being prepared for industrial scale supply. We are looking for:

- Material and chemical research to **use our chemical platform** in polymer applications
- Commodity chemical manufacturers to **upscale our building blocks**
- Specialty compounds producers to **upscale our UV curable polymer coatings**
- Coating manufacturers to **deploy our UV curable polymer coatings**
- Bioeconomy investors to give added value to bio-based content and sustainability

---

BIORING at IFIB

Booth

At the booth, you can explore the BIORING platform solutions and our automotive & furniture demonstrators, and meet our Coordinator from **CSIC - Spanish National Research Council** and our partners from **GAIKER Technology Centre**, developing the coating formulation, and from **AIRI – Italian Association for Industrial Research**.

Speech

A modular platform for bio-based coatings: tailoring design to process and application needs
BIORING Coordinator Nicole Doelker (CSIC)
Friday, 2 October, 09:00

Matchmaking

Book a spot with BIORING partners during IFIB matchmaking sessions through the **dedicated platform**. Pre-arrange bilateral meetings (B2B) with our coordinator and partners from CSIC, GAIKER and AIRI to explore new opportunities in collaborative research.
Take contact with: Nicole Doelker, Jose María Cuevas, Andrea Porcari, Elena Destro

Poster

Dive into the **BIORING platform for bio-based sustainable coatings**, discovering advances in monomers and oligomers developed by the project, innovative bio-based UV-curable resins for coatings formulations, as well as evidence and approach to support progressive transition pathways to *fully bio-based* systems.

Ask information or book a meeting with our partners: info@bioring.eu

BIORING

High-performance Biocoatings

Thank you for showing your interest in the BIORING project. Please, pass on this email to those who you think would like to join this growing community. We are looking forward to the journey ahead.
